## How to get started using the worlds most user-friendly and flexible

## TIMER Controller

- **1.** Connect the Power Supply to the TIMER Controller.
- **2.** Connect all cables to the Displays, Sound Unit and other components including the TIMER Controller.
- **3.** Press the (Enter) key for TEST SEQUENSE. The Sound and the Lights will be activated and tested.
- **4.** The Displays have to be programmed for <u>Right</u> <u>Display</u> or <u>Left Display</u> or for <u>ABC function</u>. The programming is performed by pressing a button on the back of the display.
- **5.** Press the (Menu/-) key for desired shooting sequence.
- **6.** Press the (Enter) key followed by pressing the [Start] key.

## The System is "running" – and that is all!

Remember to press the small "silver" button on the back of the display (top/left on the large display and at the bottom on the small displays) – this for correct function (TIME or ABC/ABCD). Read the User Manual for further information.
